THE PREMIUM COLLECTION

Swisstrax
World's Finest Modular Flooring

Transform your floor.

SwisstraxFlooring

The Swisstrax Brand

Randy Nelson, Founder & CEO, directed the development of this revolutionary modular flooring line in Switzerland for over 20 years before bringing the product to the USA in 2006. Today, the Swiss engineered flooring is proudly manufactured exclusively in the US and Canada and distributed direct from its headquarters in Southern California.

Swisstrax flooring continues to offer the premier modular flooring solution for commercial, residential and industrial applications world wide!

About Swisstrax+

The world's finest modular flooring.

Swisstrax is a fun, easy, and effective way to transform your floor in hours! These revolutionary interlocking tiles are purposed to quickly cover cracks, stains, damaged epoxy or just plain old boring concrete! Designed with the finest Swiss engineering, Swisstrax tiles are the only modular tile on the market to feature a proprietary 4 point injection molding process. This process ensures that every tile has maximum material distribution, edge to edge and corner to corner. It's just one of the many quality components that set Swisstrax apart from any other standard modular tile.

Barrett-Jackson

"Using Swisstrax throughout the sponsor pavilion as well as the Barrett Jackson staging lanes has really elevated the presence of these areas. We used to use carpet but the Swisstrax tiles have proven to be the best flooring option, hands down! They look great and hold up perfectly show after show!" **– Craig Jackson, CEO Barrett Jackson Auction Company**
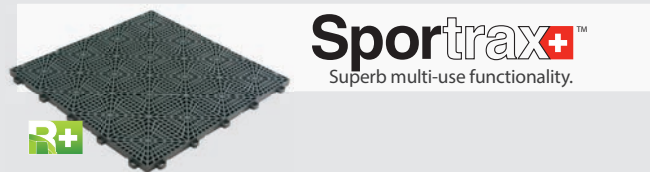

866.748.7940

Our Mission:

"Providing the finest modular flooring solutions through passion, excellence, innovation and service."

Key Benefits

- Do It Yourself install – No special tools or adhesives

- No prep work needed

- Comfortable, Safe, Non-Slip

- Up to 19 colors available - 100% UV Stabilized material

- Easy, hassle free maintenance

- Supports up to 70,000 lbs of rollover weight

- Chemical resistant, stain resistant, no toxic fumes

- Go Green! Most Swisstrax products are 100% recyclable

- Personal flooring specialists to help you every step of the way

Rib*trax*+ ™
Where form meets function.

Spor*trax*+ ™

Residential Flooring

Transform your floor.

Swisstrax offers an ideal alternative to standard concrete and epoxy flooring. It is the perfect option to enhance the look of your residential space and can be installed within hours! Cover up floor imperfections such as cracks, stains, lifted epoxy spots or just plain old boring concrete. Our modular flooring system is eye-catching, easy to assemble, easy to maintain and backed by a full 15 year warranty.

Swisstrax tiles are also chemical resistant to any fluids you would find in a garage (oils, hydraulic fluids, radiator coolant, etc.) Whether you experience snowy winters or hot, humid summers, Swisstrax has a solution that will fit your flooring needs! With 6 tile styles to choose from and up to 19 different colors, you can customize your space and be the "talk of your block!"

Garages • Patios • Basements • Home Gyms • Toy Barns
Storage Areas and more…

"After researching every option to cover my concrete garage floor, it was obvious to me that Swisstrax was the way to go! Easier to install and maintain than epoxy and no other tile company came close to their quality!" **Ken Smith, Palm Desert, CA**
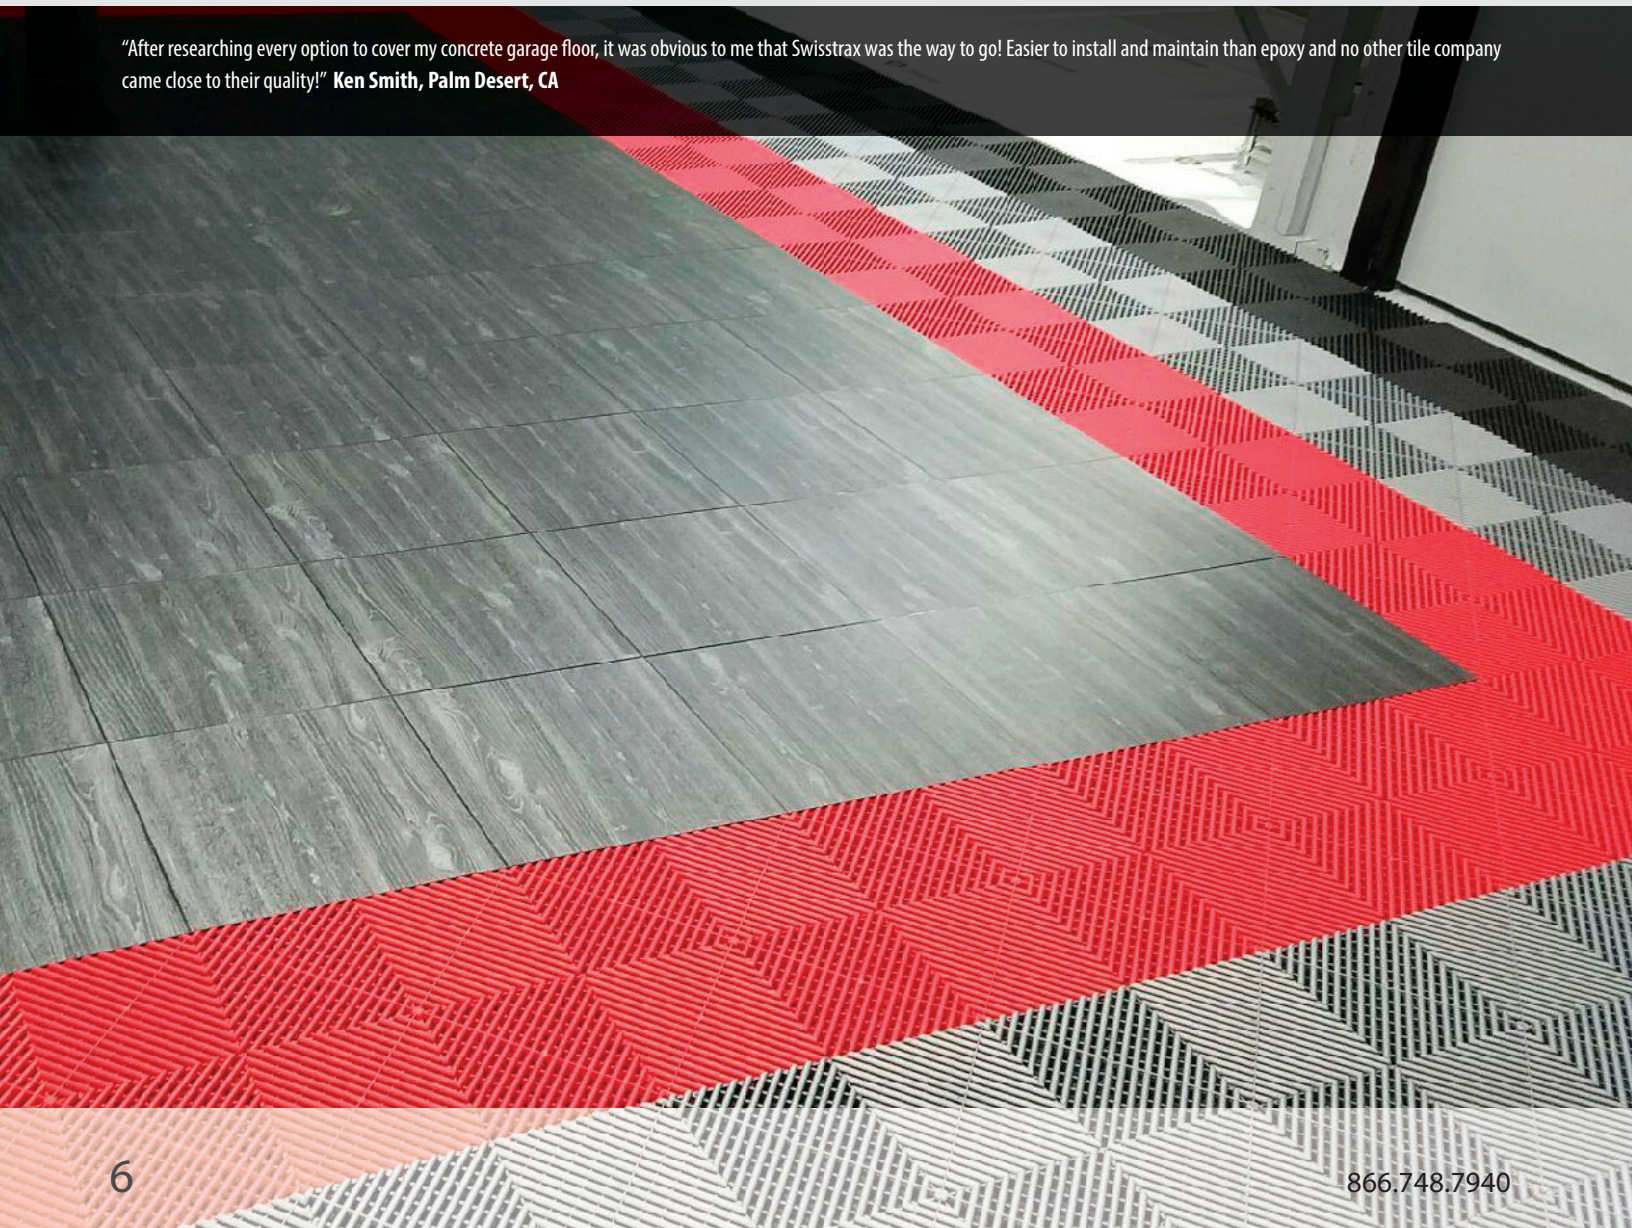

Top Reasons to install Swisstrax over any other interlocking tile.

- **Easy to remove/replace a tile:** Our patented connection system allow you to easily remove one tile or pull up a section of tiles from anywhere in your floor.

- **UV Stabilized Material:** Stabilizers are incorporated into the material AND the color pigments directly, insuring your tile color stays vibrant and resists fading.

- **4 Point Injection:** The most revolutionary injection method on the market. Ensures maximum material distribution and prevents the tile's edges from curling up over time.

- **Superior Design:** Our tiles contain the most material per square foot and the spaces between the tile's support structures are no more than 3/8". The smaller the spacing, the stronger the tile. (Competitors can have up to 1 ¼" voids)

- **Superior Connection:** Swisstrax tiles feature more connectors per side than any competitor's tile on the market. Our patented loop and peg connectors are Swiss engineered for easy assembly and a secure fit.

- **Superior Quality:** Swiss engineered and exclusively made in the United States and Canada. Tested in accordance with national standards such as ASTM as well as Australian and European test methods.

Commercial Flooring

Superior quality and customized appearance.

Swisstrax flooring is the perfect way to enhance the look of your business or work space. These tiles are easy to install, easy to maintain and designed to withstand the demands of a commercial environment. Customize your floor to reflect the look of your business and even add your company logo right into the tiles. With rollover strength up to 70,000 lbs and the ability to support the weight and mobility of a jack stand, you can work on your floor with confidence. Our tiles are also chemical resistant and able to function in temperatures ranging from -22°F to 248°F. Since manufacturing began in the United States, Swisstrax flooring has been the #1 choice for industry leaders including Barrett Jackson, SEMA, Ford, Dodge, John Deere and more …

Hangars • Workshops • Showrooms • Dealerships • Fire Stations
Event Flooring and more…

"Every event we do, and we do about 17 per year, Swisstrax is all we use for our flooring. It's easy to put together, easy to maintain, it's extremely durable and highly cost effective. We've been using Swisstrax for years and plan to continue using them for years to come." **– Paul Brearey, Marketing Manager Ford Motor Company**

ROCKSTAR performance GARAGE

"We're working daily — grinding, cutting, changing out fluids. We've been so impressed with how well the Swisstrax flooring has held up. Spills just drain out of our way, so we never have to worry about laying or slipping on fluids. At the end of the day our backs aren't killing us, which has been a big deal. We completely endorse Swisstrax and plan on using these tiles anywhere we possibly can." — **Nic Ashby, Rockstar Performance Garage**

Ribtrax+ ™

Where form meets function.

The most popular tile style in our collection overall, the Ribtrax® features a revolutionary open profile design. Ideal for a wide variety of residential and commercial applications and can be used indoors or outdoors. Regular maintenance will be a thing of the past once a Ribtrax® floor is installed. Dirt, debris and liquids will drain through, keeping the surface of your floor clean and dry month after month. Engineered with an advanced channeling system underneath, you can easily remove dirt and debris with a high pressure hose or a shop vac.

Floortrax+™

Smooth textured finish.

Floortrax™ is our smoothest solid tile surface and is widely used indoors in offices and gyms. With its lightly textured finish, Floortrax™ tiles are a great option for areas where a flat, even surface is needed for easy maneuvering of chair wheels and/or casters.

"We've really enjoyed having the Floortrax tiles here in our office areas! They were very easy to install ourselves and it only took us a few hours to re-create the cool design we wanted. The tiles really upgraded the look of our space and our customers noticed the difference right away. This is easily one of the best investments we've made in our office buildings and I would highly recommend Swisstrax to anyone! Their customer service is second to none and in my opinion, the quality difference is undeniable!" – **George Montgomery, Lansing, MI**

Rubbertrax+ ™

A smart, sustainable choice.

Swisstrax is committed to sustainability and doing our part to help the environment we live in. Our Recycled Rubber Program has removed thousands of tires from landfills across the country. That rubber is then re-purposed to create an anti-fatigue version of our interlocking tiles. These products carry the Swisstrax brand, so you know they are safe, strong and built to last. **100% post-consumer recycled content. LEEDS Points qualified.** We are dedicated to making a positive impact on the world we live in, while adhering to the quality standards we're known for.

Garages • Custom Work Mats • Work Shops • Retail Areas
Equestrian Facilities • Agricultural Uses and more…

"We are a company that continues to innovate. It has been an ongoing goal to develop a product that could incorporate these recycled materials into a high quality flooring solution. We've achieved that goal with the Rubbertrax tiles and we're proud of the positive effects it has had on our environment. They've performed for John Deere and South Point Equestrian facilities so we feel confident that they can perform for you." **— Randy Nelson, Founder and CEO, Swisstrax Corporation**

Logotrax✛™

Custom contoured logos to showcase your brand.

Logotrax™ are a unique option if you are looking for a durable, long lasting branding solution for your Swisstrax floor. These custom works of craftsmanship can enhance your event floor or upgrade your showroom, attracting new business and helping you stand above the crowd. Whether you are looking to make a lasting impression or market your brand, Logotrax™ are your ideal solution.

Every Logotrax™ logo is durable, non-slip and designed to last. Your high resolution logo or image is printed onto a Lexan plate that is custom cut to the size and specification of your choice. The tiles are then routed out and the logo is set directly into the tiles themselves. The result is a seamless, contoured logo that is permanently embossed into the tiles and assembles right into your Swisstrax floor.
